A Jain PharmaBiotech Report

AUTHOR'S BIOGRAPHY

Professor K. K. Jain is a neurologist/neurosurgeon with specialist qualifications including Fellowships of the Royal Colleges of Surgeons in Australia and Canada. He has trained, practiced and held academic positions in several countries including Switzerland, India, Iran, Germany Canada and USA. After retirement from neurosurgery, Prof. Jain remains a consultant in neurology. He is also working in the biotechnology/biopharmaceuticals industry and is a Fellow of the Faculty of Pharmaceutical Medicine of the Royal College of Physicians of UK. Currently, he is the CEO of Jain PharmaBiotech.

Prof. Jain's 490 publications include 35 books (6 as editor+ 29 as author) and 50 special reports, which have covered important areas in biotechnology, gene therapy and biopharmaceuticals, biomarkers: proteomics, molecular diagnostics, nanobiotechnology, and personalized medicine. Contributions to MedLink, an accredited continuing education program for neurologists, include 172 articles out of a total of 1200 articles by 450 authors. These articles are updated on a yearly basis.

Prof. Jain's earlier books were the first in the areas covered: "Handbook of Laser Neurosurgery" (Charles C. Thomas, Springfield, Ill, 1983) and "Textbook of Hyperbaric Medicine" (1st ed in 1990 and 6th ed by Springer, 2017). His "Textbook of Gene Therapy" was translated into Chinese in 2000. Recent books include "Handbook of Nanomedicine" (Springer 2008, Chinese edition by Peking University Press 2011, 3rd ed 2017), "Textbook of Personalized Medicine" (Springer 2009; Japanese ed 2012; 2nd ed Springer 2015, 3rd ed 2021), "Handbook of Biomarkers" (Springer 2010; Chinese ed, Chemical Industry Press 2016, 2nd ed 2017), "Drug-induced Neurological Disorders", 4th ed (Springer 2021), "Handbook of Neuroprotection" (Springer 2011, 2nd ed 2019), "Applications of Biotechnology in Cardiovascular Therapeutics" (Springer 2011), "Applications of Biotechnology in Neurology" (Springer 2013), and "Applications of Biotechnology in Oncology" (Springer 2014). He has also edited 3 editions of "Drug Delivery System" (Springer 2008, 20012 and 2018) and "Applied Neurogenomics" (Springer 2015). Lectures on personalized medicine given at Kazakh National Medical University, Kazakhstan were translated into Russian and published as a book "Essentials of Personalized Medicine" (LITERRA Publishing House, Moscow, 2019). Currently, he is writing "The Handbook of Alzheimer Disease to be published by Springer in 2022.

TABLE OF CONTENTS

21. Markets for Biomarkers	4
Introduction	4
Biomarker markets according to technologies/applications	4
Markets for protein biomarkers	4
Biomarker market relevant to drug discovery and development	5
<i>Proteomic biomarker-based drug discovery</i>	<i>5</i>
Biomarker market relevant to epigenetics	5
Biomarker market relevant to bioinformatics	5
Biomarker markets according to therapeutic areas	6
Markets for cancer biomarkers.....	6
Geographical distribution of biomarker markets.....	6
Drivers for the growth of markets for biomarkers	7
Biomarker patents	7
Factors that enhance the value of biomarker IP	7
US policy on patenting relevant to biomarkers.....	8
<i>US legal decisions on gene patenting</i>	<i>9</i>
Strategies for developing biomarker markets	10
Utilization of biomarker research in academic laboratories.....	10
Biomarker discovery at pharmaceutical companies.....	11
Industrial-academic collaborations in biomarkers	11
Unfulfilled needs in biomarkers	12
Challenges facing the biomarker industry	12
Application of biomarkers in healthcare.....	13
Applications of biomarkers beyond healthcare	13
<i>Combating bioterrorism</i>	<i>13</i>
<i>Biomarkers for monitoring human exposure to environmental toxins</i>	<i>14</i>
22. Companies	16
Introduction	16
Top companies in biomarkers	24
Profiles of companies.....	25
Collaborations.....	382
